Concept in English	<i>Add the Concept in your Language</i>	Picture
<p><b>Nucleus (nuclei)</b>            The central part of an atom that is made up of protons and neutrons.</p>		
<p><b>Proton (protons)</b>            A very small particle that is found in an atom and has a positive electrical charge.</p>		
<p><b>Electron (electrons)</b>            A very small particle that is found in an atom and has a negative electrical charge.</p>		
<p><b>Electricity (electrical energy)</b>            A form of energy that consists of the movement of electrons from one place to another.</p>		
<p><b>Discharge (discharges, discharging)</b>            The process whereby electrons move from a negatively charged place to a more positively charged place in order to even out an imbalance of charges.</p>
