

Binogi Video: Pressure in Liquids
 English-Mandarin Bilingual Concept List
The Escape Projects

<p>Pressure The amount of force exerted per area. If the area is bigger, the pressure is lower. If the force is higher, the pressure is also higher.</p>	<p>压力 每个区域施加的力的大小。面积越大，压力越小。如果力越大，压力也越大。</p>	
<p>Eardrum A thin membrane separating the outer and middle ear. The membrane starts to vibrate when hit by sound waves, the vibrations transmit to the middle ear.</p>	<p>鼓膜 能够分隔外耳和中耳的薄膜。当声波击中耳膜时，耳膜开始振动，此时振动传递到中耳。</p>
