Prodigy: Instructions for Parents

Step 1: Create a Prodigy Account
  1) Visit the Prodigy website: www.prodigygame.com
  2) Click on the "Get Started For Free" button.
  3) Sign up for a parent account by providing your email address and creating a password.

Step 2: Add Your Child's Account
  1) Log in to your parent account using the email and password you just created.
  2) After logging in, you'll be prompted to add your child's account. Click on the "Add Child" button.
  3) Fill in our child's name and grade level. Prodigy will customize the math content based on your child's grade.

Step 3: Set Up Your Child' Profile
  1) Help your child choose an avatar and customize it.
  2) Your child can also choose a username.

Step 4: Start Playing
  1) Once your child's account is set up, they can start playing immediately. Prodigy will provide a tutorial to help them get started.
  2) The game will adapt to your child's skill level and offer math questions and challenges based on their progress.

Step 5: Monitor Progress
  1) As a parent, you can log in to your parent account to check your child's progress. Prodigy provides detailed reports on the topics they've covered, time spent, and areas where they may need improvement.

Step 6: Encourage Regular Use
  1) Encourage your child to use Prodigy regularly. Set aside a specific time each day or week for math practice to help them build consistency.

Step 7: Use Prodigy as a Learning Tool
  1) Prodigy is not just a game; it's an educational tool. Encourage your child to think critically and solve math problems rather than rushing through the game.
  2) You can also discuss math concepts and problem-solving strategies with your child to reinforce their learning.

Step 8: Communicate with Teachers (Optional)
  1) If your child's school uses prodigy as part of their curriculum, consider communicating with their teacher to align their in-class and at-home learning.

Step 9: Stay Engaged and Supportive
  1) Be involved in your child's learning journey on Prodigy. Celebrate their achievements and offer help when they encounter challenges.
  2) Keep an open line communication with your child about their experience with the platform and any concerns they may have.
